# PISYS Incident Manager

'A fast and easy way to quickly alert a large team about any kind of incident, and see who's able to attend'

Alert team members via text, email or voice

Simple response via text, voice or web

Real time update of response status – see who's attending

Real time event log tracks incident progress

Can be operated by reception/admin staff with minimal training

Available online via secure cloud application

IMS is EASY TO USE – it can be learned in 5 minutes and operated by staff with minimal training

IMS is SECURE – Data is centrally managed in a secure cloud based application

IMS requires NO INSTALLATION – everything is hosted on the cloud and accessible via a browser
